# A ROBOT IS A FANCY CAFE

Anno Robot - AI Coffee Master, fully automated coffee grinding by AI robots, replacing manual labor to achieve coffee grinding skills! Robot replicated professional coffee master's craftsmanship, with a taste comparable to famous chain coffee shops, allowing everyone to enjoy high-quality coffee at an affordable price, unbeatable cost-effectiveness, and returning customers like clouds! One click intelligent drinking, 90 second fast drinking, instant enjoyment of delicious food, powerful functions, intelligent operation of mechanical arm, visual process open bar design, production process can be viewed, with internet celebrity attributes, attracting people to watch and take photos, cups of freshly ground coffee, fresh milk, instant ice making, rich taste, no difference in taste from real people's production, delicious but not expensive, self-service ordering, unmanned operation can achieve 365 days of operation throughout the year, applicable to multiple scenarios such as airports, high-speed rail stations, shopping malls, schools, office buildings, offices, front desk, etc. Through fragmented scenes, frequently reach customers, improve efficiency, and have more trading opportunities.

## DETAILED PARAMETERS

Model	CF-C-SJAN02-04
Dimension	Length 1600mm*Width 1200mm*High 800mm
Weight	500Kg
Robot arm	6 Axis Robot Arm
Coffee flavors	10-20 types (customizable)
Cup type	380ml (diameter 90mm)
The strength of coffee	Adjustable
Coffee prints	One-click upload image printed coffee
Ice Level	Ice/No ice
Sugar Level	Large sugar/Normal sugar/No sugar
Toppings module	Various toppings can be added
Power	3500W
Capacity of production	One refill makes about 150-200 medium cups
Working time	365 day 24 hour continuous operation
Order screen size	21.5 inches
Milk temperature	Default two to four degrees Celsius, support adjustable
Payment method	China supports WeChat, Alipay; Overseas supports Coin, Bill, Credit Card, etc
Formula matching system	Formula matching system
Intelligent reminder	Intelligent reminder
Background management system	Multidimensional data management
Product settings	PC APP background management
Remote control	Remote monitoring on mobile devices

800mm

1600mm

solution precision blending system, drink parameters can be adjusted by one key, you can adjust the amount of coffee, ice, milk, etc. through the background of the cell phone or web interface and save the settings to create your favorite exclusive coffee taste.

## FUNCTIONAL CHARACTERISTICS

### Robot ready-made

Full robot barista service to bring a consistent new coffee experience, multi-module synergistic operation, improve the output efficiency of the coffee beans freshly ground and now make refused instant, fresh milk, real melowy flavor, robotic freshly made, health and delicious guarantee!

### 24H Business

Robot production, integrated process, eliminating the traditional brick and mortar coffee shop location, labor and other high expenses, cost savings, return more significant. 24 hours a day, year-round, to ensure business hours.

### Convenient ordering

Scan the QR code to order, support WeChat, Alipay, UnionPay and other online payment methods, foreign countries can be equipped with swipe cards and other payment methods.

### Fresh Ground Coffee

Open bar design, colorful lighting ultimate simplicity, freshly ground coffee, steam brewing coffee production and flower pulling process at a glance. What you see is what you experience

## DETAILS AND ADVANTAGES

Flexible mobility, convenient application, equipped Universal wheels, flexible in movement, ready for use at any time. Mobile, achieving location freedom without the need for Expensive decoration costs.

Full-touch ordering, code-sweeping payment, perfect payment matrix, support WeChat, Alipay, UnionPay, etc. Overseas can be equipped with swipe card, cash and other payment methods.

Mechanical intelligence, quality assurance, adopting new technology Fresh milk source, instant ice making, zoning control. Accurate ratio, exquisite and stable coffee taste.

Mechanical arm instead of manpower, on-site grinding and production, replicating the craft of coffee masters, the production process as for as the eye can see, giving customers a novel experience, attracting people to stop and take photos!

Small material module, capable of adapting to customers' needs. Body preference for precise blending of raw materials to reduce waves. Fee. Can store various small ingredients, such as syrup, Coconut milk, caramel, cocoa, etc., can also be freely available. Customized small materials.

High quality ice maker, instant ice making, ready to use, no waiting. Ready to use, no need to wait, 24H90kg, Large ice production capacity, continuous ordering still Stable ice making.

Meet your individual needs and make it available to everyone. You can have a unique coffee. Anno AI machine Robot print coffee bar, guests can use their mobile phones Upload the image to the pattern library for cutting and shrinking. Put, add filters and text and other operations, production Exclusive drinks.

Double pump By path system, the use of two imported Italian ARS high-pressure water pump water supply, coffee water can be realized at the same time out of the production time to save half of the coffee can also be better to achieve a stable extraction, to protect the mellow taste of the coffee

1200mm

### Customized

A variety of classic coffee, rich drinks, dozens of basic coffee flavors can be enjoyed, exotic flavors, mellow cocoa, smooth chocolate and more flavors can be set according to personal preference.

### Intelligent Management

Powerful backstage management system, sales earnings revenue and cost of background system data, clearly checkable, convenient management. Flexible management of commodity types, pictures and prices.

## flavor types

Iced Mochaccino

Hot Cocoa

Iced Latte

Print coffee

Iced Americano

Raw Coconut Latte

Cappuccino

Fruity White

American Curry

Italian style milk coffee

solution precision blending system, The amount of coffee, iciness, milk amount, etc. can be adjusted with one key to select high-quality Arabica beans, and 15 preset printed coffee flavors are optional. More flavors are available for customization.

Preset 15 coffee flavors to choose from, such as common American, latte, mocha and other classics Coffee, as well as 5-10 coffee styles such as cappuccino, Furry White, Italian, etc Flavor, hot and cold freshly ground coffee, milk tea, milk drinks, juices, etc. And more flavors can be customized.

## EXAMPLES OF EQUIPMENT PLACEMENT

Newly upgraded,  
60+ countries/regions, 500+ partners

Customers cover more than 60 countries around the world, including China, the United States, Britain, Germany, France, Japan, Australia and other countries, and can be applied to office buildings, shopping malls, schools, airports, hotels, bookstores, science and technology parks, cafeterias, exhibitions, neighborhoods and other scenarios.

## BACKSTAGE MANAGEMENT PLATFORM AND SYSTEM

1 cell phone can manage 10 + sets of equipment!

Powerful background management program, features include inventory management, overall overview, data reports, member center, commodity center, order center, marketing tools, real-time data, at any time to control the lack of material failure real-time reminder, to protect the after-sales worry. Help you better to operate adjustments.

1

### Inventory management

*Inventory Inquiry, Inventory Statistics, Change Detail, Inventory History, Production Records*

2

### Machine management

*Store overview, business trend analysis, merchandise sales statistics, store sales summary, store payment summary*

3

### Data center

*Daily data, cash receipts and disbursements, member profiles, member consumption analysis, merchandise sales and inventory reconciliation, financial operating cost analysis, turnover and gross profit*

4

### Alert notice

*Real-time reminder of lack of material, real-time reminder of failure wechat, SMS or email reminder, control the machine at any time.*

5

### data center

*Product information, product classification, product settings, sorting management, taste management, raw material configuration, and product price adjustment*

6

### Order management

*Inventory inquiry, inventory statistics, change detail inventory history, products production records*

7

### Record of operation

*Advertising and marketing, providing materials and plans, Random instant discounts, limited time offers, Pay deposit coupons to increase customer flow*

8

### Route management

*Different venues, different operations Online revenue is automatically settled to bank card Reduce manual errors Save offline transfer costs*

# NEW BUSINESS NEW TREND

## RECONSTRUCTED CHAIN COFFEE BUSINESS

### Chain coffee pain points

- High price of site selection and decoration fee
- Difficulty in employing labor for large chains
- Difficulty in training for rich categories
- Fatigue Intensity increase quality assurance difficult
- Chain offline landing replication difficult
- Difficult to control food safety manually

### Advantages of Robot Coffee Bar

- Moveable, no renovation costs
- 7\*24 replacement of manual operation
- Backend - key upgrade standardization
- High repetition accuracy ensures consistency of movement
- Modular customization, full service coverage
- Fully automated mechanical operation with zero contact

## RETURN ON INVESTMENT COMPARISON

	Traditional coffee shop	VS	Anno Robot Coffee Bar
Store Cost	\$41500 - \$110000 High decoration costs and high investment		\$14000 - \$28000 No need for decoration, movable, no risk of off peak season
Labor Costs	Professional barista, more than 15000 yuan per month		5000 yuan per month, one person can manage multiple devices
Rent	Covering an area of 10m <sup>2</sup> -50m <sup>2</sup> , with high rent		Overing an area of 2m <sup>2</sup> - 3m <sup>2</sup> , only 10%-20% of that of a traditional store
Product Quality	The skills, emotions and status of employees will all lead to deviations in taste		Inified process standards, consistent taste
Production Efficiency	3 minutes to 4 minutes, there is a big difference in efficiency between novices and experienced people, and defective products need to be remade.		1 minutes to 2 minutes, efficient and stable
Business Hours	8-10 hours		24 hours
Monthly Gross Profit	Sell 200 cups a day, making a monthly profit of about \$4150		Sells 200 cups a day and makes a monthly profit of about \$8300
<b>Cost comparison per cup: low investment, high return</b>			
	Big investment in traditional coffee store		Anno Robot Coffee Bar has low investment
Material Cost	About 5.5-7.5 RMB (high loss and waste)		About 2-3 RMB (precision production)
Manual Allocation	About 5 RMB		About 0.1 RMB
Rent	About 5 RMB		About 0.5 RMB
Depreciation Maintenance (Single Cup)	About 3 RMB		About 0.5 RMB
Store Lifespan	2-3 years (1 year old, 2 years broken, 3 years demolished)		10 years
Total Cost	At least 15 RMB or more (At Chinese market prices)		Around 5 RMB (At Chinese market prices)
Compare	Product is unstable Poor employee memory food safety hazards/Waste is very serious Many mistakes Not green or low carbon		Product stability constant Stable and excellent taste Food hygiene is higher than manual operation stores. Low energy and low usage No waste, no loss Green, low carbon environmentally friendly, eco-friendly

## SELF-DEVELOPED CORE PATENTS

National high-tech enterprises, robotic arm and robotic coffee research, production and marketing source factory, independent intellectual property rights, more than 70 core patents, product quality management system through the standard certification

## AFTER-SALES CENTER SIX SUPPORT

### Customer service hotline support:

Official website customer service, WeChat public number, WeChat group, after-sales phone and other multi-channel after-sales support;

### Software support:

Software can be operated remotely, and support software upgrade services, can be found in a timely manner in the use of the problems and pitfalls, to complete the simultaneous updating of equipment to ensure that the equipment has the latest features and best performance.

### Hardware support:

Free replacement of core components within the warranty period, video or text guide replacement, can also support the return to the factory to repair; also equipped with detailed after-sales video and instruction manual guidance;

### Training support:

Support for training in the factory or through video, conference, text and voice and other forms of training, to understand the operating principles of the equipment, the use of methods and repair and maintenance.

### Maintenance warranty:

Commitment to a one-year warranty, lifelong maintenance; at the same time configured with various types of maintenance accessories to ensure that the first time can quickly deal with the problem.

### Technical expert support:

Technical experts online real-time answers and problem diagnosis, after-sales engineers more than one service to help users quickly locate the fault, maximize the protection of the efficiency of the equipment, worry-free after-sales.
